

OM MISTRY

Toronto, ON, Canada | (905) 608-7729 | om.mistry567@gmail.com | linkedin.com/in/om-mistry67 | github.com/Om-M67

SUMMARY

Physics graduate with experience in **analytical problem-solving**, **Python programming**, and **cloud technologies**. Holds **Microsoft Azure AI** and **Azure Fundamentals** certifications. Skilled at diagnosing complex issues, communicating technical findings clearly, and collaborating across teams. Eager to apply technical and investigative skills in a **client-facing software support** environment.

TECHNICAL SKILLS

Languages: Python, Java, SQL, Dr.Racket

Libraries & Frameworks: NumPy, Pandas, Matplotlib, SciPy

Tools & Platforms: GitHub, MySQL, Arduino, Microsoft Azure, Jupyter Notebook

Data Skills: Exploratory Data Analysis, Data Cleaning, Data Visualization, Statistical Analysis

PROJECTS

Telco Customer Churn Analysis | *Python, Pandas, Matplotlib, GitHub*

- Analyzed **churn patterns** across **7,043 telecom customers** to identify **root causes** and at-risk segments; found month-to-month contracts churn at **42.7%**, over **15x** the rate of two-year contracts.
- Communicated findings through **clear visualizations** and written summaries, conveying **actionable insights** to non-technical audiences.

Superstore Sales Analysis | *Python, Pandas, Matplotlib, GitHub*

- Performed **end-to-end exploratory data analysis** on **9,994 retail transactions** spanning 4 years; uncovered that Tables and Bookcases were **loss-making** despite high sales volume.
- Built **5 visualizations** including monthly sales trend lines and regional bar charts; identified the West region as top revenue generator (**\$725K**) and Technology as most profitable category (**\$145K profit**).

Duffing Oscillator Simulation and Fourier Analysis | *Python, Jupyter Notebook*

- Implemented a numerical solution using the **fourth-order Runge-Kutta method**, demonstrating ability to reason through and **debug complex algorithmic logic**.
- Applied **Discrete Fourier Transform (DFT)** to study frequency components; developed scripts utilizing **NumPy, SciPy, and Matplotlib** for efficient computation and analysis.

KelogsDojo | *Java, Apache Maven*

- Developed a strategic card game with a **team of six software engineers**, using **Apache Maven** for build management across the full development lifecycle.
- Implemented an **AI opponent** with increasing difficulty levels, demonstrating ability to **understand and modify application logic** for functional troubleshooting.

Netflix Analysis | *Python, Pandas, Matplotlib, GitHub*

- Analyzed a dataset of **8,807 Netflix titles** (2008–2021) to uncover content trends across genres, countries, and content types; identified a **peak in 2019** followed by a **COVID-related production slowdown** in 2020–2021.
- Discovered that **69.6%** of Netflix's catalog is movies and that **TV-MA** is the most common content rating with **3,207 titles**, communicating findings through targeted visualizations.

WORK EXPERIENCE

Waterloo Experience (WE) Accelerate

Toronto, Ontario

Skills Training and Project Work

Sept 2023 – Dec 2023

- Successfully completed the WE Accelerate program, earning certifications in Azure AI and Azure Fundamentals.
- Utilized Azure tools to design a proposed solution for an AI-operated online financial advisor.

Cassie Campbell Community Centre

Brampton, Ontario

Swimming Instructor & Lifeguard

Sept 2018 – March 2020

- Instructed children and adults across **all skill levels in water safety** and swimming, demonstrating **clear communication** and adaptability with diverse groups.
- Completed **cross-functional training** with aquatics staff across Brampton; volunteered **100+ hours** and held **Standard First Aid with CPR-C** certification.

EDUCATION

University of Waterloo

Waterloo, Ontario

Bachelor of Science in Physics

Sept 2020 – Apr 2025

- Relevant courses: Advanced Computational Physics, Quantum Physics II, Differential Equations, Probability, Statistics and Data Analysis for Physics, Intermediate Classical Mechanics, Stars and Planets.
